连接大型电机和中型电机的数据线
，我提供示例程序中的端口号（大
型电机：A、D端口、中型电机：B
端口）

ConThe data cable connecting the large
motor and the medium-sized motor, the
port number in the program I provided
(large motor: A, D port, medium-sized
motor: B port)

The program is too large and difficult to
display in PDF. Please download the
program and open it in the software or go to
the video to view the recorded program
video.

程序太大，PDF中不太好展示，请大家
下载程序在软件中打开或者去视频中查
看录制的程序视频。
